About Our Association

Who are we?

The Polish Blockchain Association is a team of experts and passionate individuals working towards promoting and developing blockchain technology in Poland.

Our association is a platform for knowledge exchange and a meeting place for representatives of business, science, public administration, developers, and enthusiasts of new technologies.

What we do?

The association organizes various events such as industry conferences, meetups and webinars to enable its Members, Business Partners and those interested in blockchain to not only participate in discussions and exchange experiences, but also to learn and grow professionally.

We help to realise the full potential of the technology.

Become our Member
Let's grow together!

Our Association's Timeline

We bring together people and companies in the industry, creating a strong and integrated community. Together, we aim to raise awareness and understanding of blockchain technology among different target groups.

2018

Polish Blockchain Association was founded.

2019 - 2021

We educate about blockchain at meetups, webinars and schools.

2022

"Blockchain in Business". The first event in Poland dedicated to enterprises and companies

2023

"Technology of Tomorrow". The first event in Poland dedicated to the combined potential of blockchain, IoT & AI.

Supporting Member

We Are Growing

We are the leaders of our region.

The largest blockchain
association in Poland and CEE.

Our Mission

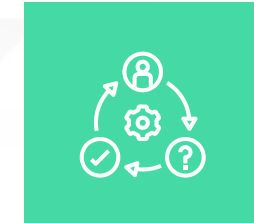

Education

We are experts who share our knowledge and experience. We connect the world of business and IT.

Community

We are developing a community of specialists and enthusiasts of blockchain technology.

Implementation

We focus on integrating blockchain solutions providing practical support and guidance.

We are building awareness

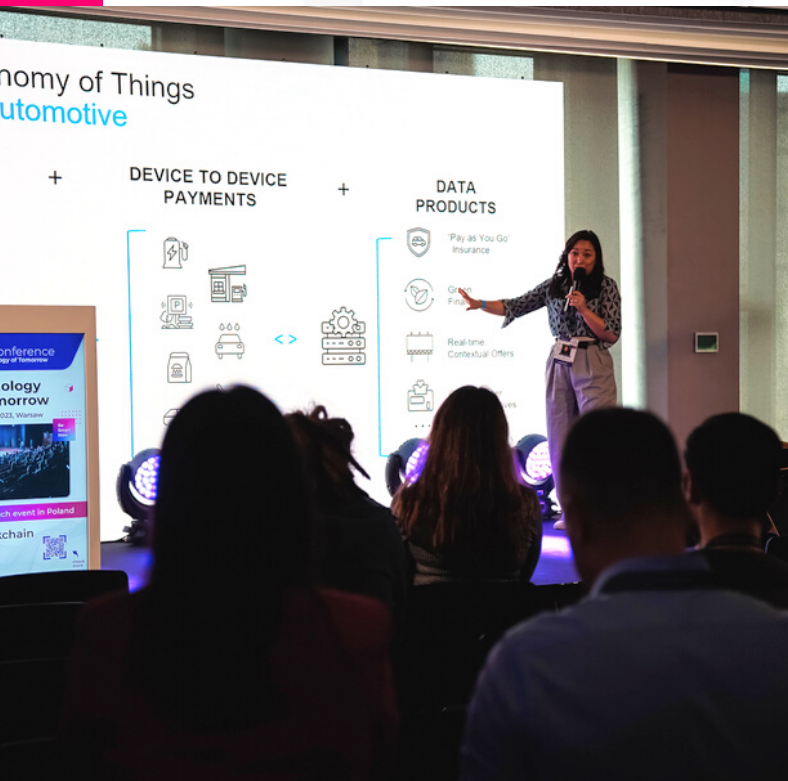

Blockchain is not speculation. It's a real technology that solves problems and provides value.

ToT Conference

Technology of Tomorrow

18 May 2023, Warsaw

The first event in Poland dedicated to the combined potential of **blockchain, IoT and AI.**
